## **Lyxor AM first to list on Euronext Paris ETFs tracking the Chinese index: HSCEI and the Eastern European index: CECE Eur.**

Lyxor AM, wholly owned subsidiary of Société Générale Group, announces the listing of 2 new tracker funds on Euronext Paris: Lyxor ETF China Enterprise (HSCEI) and Lyxor ETF Eastern Europe (CECE Eur).

Lyxor ETF China Enterprise tracks the well known Hang Seng China Enterprises Index (HSCEI) that has been calculated and published by HSI Services Limited (HSIL) since 1994. The new ETF enables European investors to gain exposure to the large cap Chinese stocks (H shares\*) listed and tradable on the Hong Kong Stock Exchange. The HSCEI is specifically designed for international investors, combining the ease of trading on the Hong Kong exchange and a transparent compilation by HSIL. The index is used as the basis for numerous on-exchanges and OTC derivative products, mutual funds and ETF worldwide. Lyxor AM has obtained an exclusive licence to list an ETF in Continental Europe.

Lyxor ETF Eastern Europe tracks the CECE in euros. Calculated and disseminated in real-time by Wiener Börse, the start level of CECE®EUR was set to 746,46 points as of 4 January 1999. CECE®EUR covers about 95% in terms of turnover and over 85% in terms of market capitalization of the total Czech, Hungarian and Polish stock markets. The new ETF gives direct access to a diversified portfolio of Eastern European blue chips in an efficient and cost effective manner.
