C. Harmonised Transparency Template - Glossary

HTT 2020

The definitions below reflect the national specificities

| Field Number | 1. Glossary - Standard Harmonised Items | Definition |
|--------------|---|--|
| HG.1.1 | OC Calculation: Actual | Nominal Overcollateralisation "OC" ratio : The OC ratio as established to comply with contractual and rating agencies minimum requirements is a nominal rate calculated by dividing the nominal outstanding amount of eligible assets (substitute assets and accrued interests excluded) by the nominal amount of covered bonds (after taking into account if any interest rate or currency swaps and accrued interests excluded). |
| HG.1.2 | OC Calculation: Legal minimum | The most restricting OC rate required by the rating agencies is disclosed in this report Legal "Coverage ratio" : This ratio is calculated by dividing the total assets amount (including accrued interests, substitute assets and other assets as prepayments and net accrued incomes on derivatives) by the amount of priviledged debts accrued interests included (covered bonds, sums due on derivatives and collateral management fees). When the eligible assets are transfered into the cover pool using guaranteed loans, the amount of the guaranteed loans in the assets amount is replaced by the amount of the eligible assets pledged as collateral. Following amendments to the French covered bond legal framework for sociétés de credit foncier (SCF) and sociétés de financement de l'habitat (SFH) that came into force on 28 May 2014 (published in JO nº0123 of 28 May 2014), a cap on intragroup exposure has been set at 25% of non-privileged resources and the legal minimum collateralisation raised to 105%, from 102%, on a nominal basis. |
| | | The legislation requires that a legal coverage ratio is calculated a posteriori on the basis of the audited accounting figures twice a year : as of December 31st and June 30th and on unaudited accounting figures as of March 31st and September 30th. These legal ratios are audited and available within a period of three months following the calculation reference date. The last audited ratio is provided as an additional information. As a consequence, the current ratio, calculated on a quarterly basis, is provisionnal / unaudited and is based on forecast amounts as of the end of each quarter, calculated in the frame of the approval of the funding programme of the issuer. |
| HG.1.3 | OC Calculation: Committed | "Committed" OC is equal to Contractual OC in order to reassure Rating Agencies. Interest Rate Types in the cover-pool of SG SFH are mainly fixed interest rates, and also floating interest rates. "Floating" includes loans with with interest rate reset periods exceeding one year (e.g. loan indexed on CMS SY with an interest rate reset every five years) |
| HG.1.4 | Interest Rate Types | "Mixed" is used for loans with a combination of fixed, capped or floating periods (e.g. 10 years initial fixed rate switching to floating). |
| HG.1.5 | Maturity Buckets of Cover assets [i.e. how is the contractual and/or expected maturity defined? What assumptions eg, in terms of prepayments? etc.] | Interest Rate Types of the Covered Bonds of SG SFH are mainly Fixed coupon, and also Floating coupon mainly based on EIBEUR3M. Interest Rate Types of the Assets of SG SFH are mainly Fixed interest rates, and also Floating interest rates. Contractual maturities : Contractual maturities are calculated assuming a zero prepayment scenario on the cover pool assets. Regarding covered bonds and substitute assets, contractual maturity is calculated according to the legal final maturity. Regarding soft bullet covered bonds, contractual maturity is calculated according to the initial legal final maturity without any extension. Expected maturities : Expected VAL and maturities of the cover pool assets are calculated assuming an average percentage of prepayment rate observed over the last year. The substitute assets being actually composed of cash and term deposits to financial institutions, their expected maturity is assumed to be equal to their contractual one. Regarding soft bullet covered bonds, expected maturity is calculated according to the legal final maturity including the extended maturity of 1 year. |

| HG.1.6 | Maturity Buckets of Covered Bonds [i.e. how is the contractual and/or expected maturity defined? What maturity structure (hard bullet, soft bullet, conditional pass through)? Under what conditions/circumstances? Etc.] | "Contractual maturities" and "Expected maturities" : see above. Maturity structure is Hard Bullet for initial Covered Bonds. Maturity structure has been Soft Bullet for Covered Bonds emission since 2015. |
|---------|---|---|
| | | Unindexed current LTV : Unindexed LTV is calculated on the basis of the current outstanding amount of the loans and the initial valuation / price of the residential assets. |
| HG.1.7 | LTVs: Definition | |
| | | Indexed current LTV : Indexed LTV is calculated on the basis of the current outstanding amount of the loans to the appraised values or prices of the residential assets using an indexation methodology. |
| HG.1.8 | LTVs: Calculation of property/shipping value | The current residential values / prices are calculated based on INSEE Index publicated on the following webside address: http://www.bdm.insee.fr |
| HG.1.9 | LTVs: Applied property/shipping valuation techniques, including whether use of index, Automated Valuation Model (AVM) or on-site audits | Current value of residential home loans is calculated automatically but also controlled twice a year both internally and by the Contrôleur Spécifique |
| HG.1.10 | LTVs: Frequency and time of last valuation | The LTV is calculated on a quarterly frequency. There is always a gap of one quarter between the last LTV valuation and the date of the quarterly ECBC Report. |
| | | The SG SFH cover pool is 100% made of french residential home loans totally guaranteed by Credit Logement |
| | | Each table reported in section 4 display information on this french residential fome loan cover pool |
| | | There is no residential mortgage in the SG SFH cover pool |
| | | There is only residential with guarantee insurance in the SG SFH cover pool |
| HG.1.11 | Explain how mortgage types are defined whether for residential housing, multi-family housing, commercial | |
| | real estate, etc. Same for shipping where relecvant | Geographical distribution / regional breakdown : |
| | | The geographical breakdown of assets takes into account the location of the property which is refinanced |
| | | by the guaranteed loans |
| | | The geographical breakdown of assets shall take into account the location of the pledged property for residential mortgages and the location of the property which is refinanced by the loan in the case of guaranteed loans. |
| | | residential morpages and the location of the property which is remainded by the location in the case of guaranteed location. Société Générale SFH has set up an Asset Liabilities Management restructuring to optimize the hedging |
| HG.1.12 | Hedging Strategy (please explain how you address interest rate and currency risk) | Strategy of the Issuer and based on natural hedging between Cover-pool and Covered Bonds. |
| HG.1.13 | Non-performing loans | There are no non-performing loans in the cover-pool of SG SFH. |
| | 2. Reason for No Data | Value |
| HG.2.1 | Not applicable for the jurisdiction | ND1 |
| HG.2.2 | Not relevant for the issuer and/or CB programme at the present time | ND2 |
| HG.2.3 | Not available at the present time | ND3 |

| | | | S. |
|---------|--|--|----|
| | 3. Glossary - Extra national and/or Issuer Items | Definition | |
| HG.3.1 | Other definitions deemed relevant | <u>Covered bond issuer ratings :</u> The rating agencies' methodologies ususally take the senior unsecured rating of a covered bond issuer's parent company as a starting point for their assessment of the credit risk of covered bonds. However, instead of refering to the parent company rating, some rating agencies may issue a "covered bond issuer rating" which is an assessment of the credit quality of a CB issuer's credit quality on an unsecured basis. Generally, a "covered bond issuer rating" is the same as the senior unsecured rating of the CB | |
| OHG.3.1 | | issuer's parent company although it may be different in some specific cases. If no "CB issuer rating" has been granted to the CB issuer, "NA" is be indicated. <u>Core Tier 1 ratio (%) :</u> Core Tier 1 is the Common Equity Tier 1 ratio - CET1 calculated for Bale 2,5 <u>Covered bond issuer :</u> | |
| | | Covered bonds and cover pool : | |
| OHG.3.2 | | Guaranteed loans or mortgage promissory notes : | |
| | | The eligible assets, fully composed of French Home Loans 100% guaranteed by Credit Logement, are transfered into the cover pool using guaranteed loans (i.e. collateral directive framework). The outstanding amount of the eligible assets pledged as | |
| | | collateral of the loans are indicated instead of the amount of the guaranteed loans. | |
| | | Contected of the loans are monacted instead of the amount of the guaranteed loans. The nominal outstanding amount of the eligible assets is booked in Off-Balance Sheet as guarantee received. | |
| | | Substitute assets : | |
| | | Are reported the amount of substitute assets as defined by the French Law (Articles L515-17 and R515-7 | |
| | | of Code Monétaire et Financier). For SG SFH the subtitute assets are composed of cash and deposits to its | |
| OHG.3.3 | | parent company. The outstanding amount is booked in Assets - Balance Sheet as amounts due from credit | |
| | | institution. These substitute assets are included in the calculation of the legal coverage ratio but not taken into | |
| | | account in the nominal rating agencies overcollateralisation ratio. | |
| | | Accounting assets not included in the cover pool : | |
| OHG.3.4 | | Are not included in the cover pool the guaranteed loans (replaced by the eligible assets pledged as collateral) | |
| | | and the prepayments and accrued income on derivatives. | |
| | | "Of which assets eligible to CB repo-operations" : | |
| | | The outstanding amount of eligible assets including replacement assets shall be filled in. | |
| | | If the eligible assets are transferred into the cover pool using guaranteed loans (i.e. collateral directive | |
| OHG.3.5 | | framework) or mortgage promissory notes, the outstanding amount of the eligible assets pledged as | |
| | | collateral of the notes or loans should be indicated instead of the amount of the guaranteed loans. | |
| | | The eligibility criteria to central bank repo-operations include the exceptional measures accepted by the | |
| | | ECB in February 2012 and presently in use with the French NCB. | |
