This presentation contains forward-looking statements relating to the targets and strategies of the Société Générale Group. These forward-looking statements are based on a series of assumptions, both general and specific, in particular the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union, as well as the application of existing prudential regulations. These forward-looking statements have also been developed from scenarios based on a number of economic assumptions in the context of a given competitive and regulatory environment. The Group may be unable to:

- anticipate all the risks, uncertainties or other factors likely to affect its business and to appraise their potential consequences;
- evaluate the extent to which the occurrence of a risk or a combination of risks could cause actual results to differ materially from those provided in this document and the related presentation.

Therefore, although Société Générale believes that these statements are based on reasonable assumptions, these forward-looking statements are subject to numerous risks and uncertainties, including matters not yet known to it or its management or not currently considered material, and there can be no assurance that anticipated events will occur or that the objectives set out will actually be achieved. Important factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements include, among others, overall trends in general economic activity and in Société Générale’s markets in particular, regulatory and prudential changes, and the success of Société Générale’s strategic, operating and financial initiatives.

More detailed information on the potential risks that could affect Société Générale’s financial results can be found in the Registration Document and Société Générale Base Prospectus as supplemented, both filed with the French Autorité des Marchés Financiers.

Investors are advised to take into account factors of uncertainty and risk likely to impact the operations of the Group when considering the information contained in such forward-looking statements. Other than as required by applicable law, Société Générale does not undertake any obligation to update or revise any forward-looking information or statements. Unless otherwise specified, the sources for the business rankings and market positions are internal.

Figures in this presentation are unaudited.

1 SG APPROACH TO SUSTAINABILITY
A CORPORATE PURPOSE APPROVED BY THE BOARD THAT GUIDES OUR STRATEGIC PLAN

OUR CORPORATE PURPOSE

Clarification of the Group Corporate Purpose, approved by the Board in January 2020

“Building together, with our clients, a better and sustainable future through responsible and innovative solutions”

STAKEHOLDER DIALOGUE

- Corporate Purpose drew on 85,000 contributions from staff worldwide
- Currently, we are embarking on a second materiality exercise to drive our next Strategic Plan, drawing on a multi-stakeholder approach:

3 pillars for the next Strategic Plan:
- CSR
- Clients
- Efficiency

Conclusions of the Materiality exercise will update the CSR strategy, with Board validation

STATEGIC PLAN

ROLL OUT ACROSS GROUP

- All Business and Service Units integrating CSR in their operational models
- Integration of CSR into the strategic plan presented by each business line during their annual Strategic Steering Committee

SUSTAINABLE VALUE CREATION FOR ALL STAKEHOLDERS
SIX STRATEGIC CSR PRIORITIES: "TRANSFORM TO GROW"

**CLIMATE CHANGE**
- Committed to align lending portfolio with Paris Agreement
- Integration of E&S risk management across front office, written into SG Code
- Strengthened governance and organisation
- Stakeholder engagement

**SUSTAINABLE DEVELOPMENT OF AFRICA**
- Committed to sustainable, low-carbon and inclusive development
- Grow with Africa initiative
- Alternative banking models
- Impact-based finance to respond to the SDG financing gap

**SOCIAL TRENDS & INNOVATION**
- Support for the social and solidarity economy, entrepreneurship, urban development, sustainable mobility and inclusion

**CLIENT SATISFACTION**
- Consistently striving for the highest standards of customer protection, security and service quality

**ETHICS & GOVERNANCE**
- Applying the highest standards of integrity, supported by a Group Code of Conduct, Tax Code of Conduct, Anti-Corruption and Anti-Bribery Code
- Culture and Conduct programme
- 12 sectoral policies covering sensitive sectors
- ESG variable remuneration targets for top management

**RESPONSIBLE EMPLOYER**
- Developing employee skills, adapting to changing environments
- Developing a responsible banking culture based on shared values
- Fostering employee Commitment
COMPREHENSIVE AND INTEGRATED VALUE CREATION

DEFINING THE WAY WE DO BUSINESS

SATISFY AND PROTECT OUR CUSTOMERS

SG’s Sustainable and Positive Impact Bond framework is:

✓ fully aligned with the UNEP FI’s Principles for Positive Impact Finance and its Assessment Framework
✓ fully aligned with the ICMA’s Green Bond Principles, Social Bond Principles and Sustainability Bond Guidelines
✓ and designed to be consistent with the TEG’s EU Green Bond Standard*, when relevant and feasible

SG’s Positive Impact Bonds will (re)finance eligible activities aimed at generating environmental and/or social benefits and will support achieving one or several of the following United Nations Sustainable Development Goals:

1. No Poverty
2. Zero Hunger
3. Good Health and Well-being
4. Quality Education
5. Clean Water and Sanitation
6. Gender Equality
7. Affordable and Clean Energy
8. Decent Work and Economic Growth
9. Industry, Innovation and Infrastructure
10. Reduced Inequalities
11. Sustainable Cities and Communities
12. Responsible Consumption and Production
13. Climate Action

Framework’s main components

1. Use of Proceeds
2. Asset Evaluation & Selection
3. Management of Proceeds
4. Assessment / Reporting
5. Transparency / External Review

## USE OF PROCEEDS

### Positive Impact Bond characteristics

- **Any debt security** such as senior preferred bonds, senior non preferred bonds, subordinated bonds, covered bonds, structured bonds, or commercial paper and medium-term notes
- Issued by **any issuance entities of Societe Generale**
- Either **green, social or sustainability bonds** if an amount equivalent to the net proceeds is applied to (re)finance, in part or in full, eligible activities in the **green categories**, in the **social categories** or in **both categories respectively**

### Eligibility criteria for activities

Eligible activities will be selected:

- Based on the **eligibility criteria** defined for each category and described in the Framework, and
- According to the **qualification process for positive impact**

Eligible activities will exclude:

- Enterprises operating in the business sectors listed in the appendix, such as, but not limited to, tobacco, gambling, weapons and munitions, alcohol (excluding beer and wine)
- Projects fully financed by any other type of funding*

### Positive Impact Bond categories

<td></td>
</tr>
</tbody>
</table>

(*) when Eligible Activities partially benefit from a specific funding scheme, the associated amount eligible will only include the share financed by the Issuer
**ASSET EVALUATION & SELECTION (1/2)**

### The Positive Impact Bond Committee

**Activities’ selection process**

**The Positive Impact Bond Committee**

- Chaired by SG Head of Group Treasury
- Meets at least semi-annually
- Created to ensure compliance with the Framework and to oversee the entire issuance process

**Committee composition:**

- SG Group Treasury
- SG Group Corporate and Social Responsibility department
- SG E&S internal experts from relevant business lines
- SG Group data providers

**Committee Responsibilities**

- To validate the portfolio of Eligible Activities identified by SG Group
- To discuss and validate changes required to the Framework (if any)
- To foster transparency by ensuring adequate disclosures to third parties
- To address any issues arising from the review by the SPO

### A 3-step qualification process

**Identification**

- A first level of the ‘a priori’ positive impact through the identification of potential negative impacts on the 3 sustainable development pillars (economic convergence, populations’ basic needs and the environment) and of positive impacts at least on climate

**Evaluation**

- Assessing positive and negative E&S impacts
- Assessing how negative impacts are addressed or mitigated

  - Only activities with well managed negative impacts combined with positive ones are considered to be “positive impact”
  - The E&S risk analysis encompasses the “do no significant harm” and the “compliance with minimum social safeguards” required by the EU Taxonomy for the selection of green category Eligible Activities

**Action**

- For green activities, the positive impact on climate change is estimated based on methodologies defined for each green category
- For social activities, the positive impact on society is estimated according to the level of available information based on the number of beneficiaries
Positive Impact approach

Positive Impact Finance is that which serves to:

- Deliver a positive contribution to one or more of the 3 pillars* of sustainable development
- Once any potential negative impacts to any of the pillars have been duly identified and mitigated

EU Taxonomy approach

To be considered as environmentally sustainable, an economic activity must notably:

- Contribute substantially to one or more of the 6 environmental objectives**
- Do no significant harm to any of the other environmental objectives

(*) Economic, environmental and social

(**) Climate change mitigation, Climate change adaptation, Sustainable use and protection of water and marine resources, Transition to a circular economy, Waste prevention and recycling, Pollution prevention and control, Protection of healthy ecosystems
MANAGEMENT OF PROCEEDS & REPORTING

Management of proceeds

• SG’s Treasury department manages the net proceeds of the Positive Impact Bonds in accordance with this Framework

• Subsequent changes to the Framework will not apply to outstanding Positive Impact Bonds. Eligible Activities must meet the eligibility criteria at the time they are flagged as Eligible Activities (possible future enhanced criteria will not apply retroactively to the existing Eligible Activities)

• During the life of the Positive Impact Bonds:
  ✓ Eligible Activities will be added to or removed from the pool of Eligible Activities to the extent required
  ✓ In case of removal of Eligible Activities, SG commits, on a best-efforts basis, to reallocate immediately the equivalent amount of proceeds to other Eligible Activities

• Unallocated proceeds, if any, will be managed within SG’s regular cash management operations

Assessment / Reporting

• SG will publish annually and until the maturity of the Positive Impact Bonds a reporting on:
  ✓ the allocation of the net proceeds, and
  ✓ the expected positive impact of the eligible activities with relevant impact metrics, as per the indicative list included in the Framework, at eligible activities level when applicable and per eligible category otherwise

• SG will strive to follow market practices such as the ICMA’s Harmonized Framework for Impact Reporting

Example of information presented in SG’s impact reports for its outstanding Positive Impact Bond (issued in 2015, 2016 and 2018)
TRANSPARENCY THROUGH EXTERNAL REVIEWS

Second Party Opinion

ISS ESG

- ISS ESG has reviewed SG’s Framework and issued a SPO on its environmental and social credentials and its alignment with:
  - The PPIF and the ICMA Principles
  - The issuer has defined a formal concept for its Sustainable and Positive Impact Bond Framework regarding definition, framework, assessment, and transparency.
  - This concept is in line with the UNEP FI’s PPIF and the ICMA GBPs, SBPs and SBGs
  - As well as the EU GBS on a best-efforts basis
  - ISS ESG finds that the concept described in the Societe Generale Framework aligns with the draft model of EU GBS on a best effort basis
  - Societe Generale’s eligible green categories are aligned with the Technical Screening Criteria defined by the EU Taxonomy as per the TEG’s publication from March 2020*
  - ISS ESG finds that the willingness of Societe Generale to align with the draft of EU Green Bond Standards before its official inception at the European level contributes to shape best market practices

Auditor review

- SG will request and make public, on an annual basis, a reasonable assurance report, provided by its external auditor or any other appointed independent third party on the reporting
- For each reporting, the auditors will verify:
  - the allocated and unallocated net proceeds
  - the compliance of the eligible activities with the defined eligibility criteria of the relevant categories
  - the review of the positive impact reporting
