2.

ESG BY DESIGN

We have 20 years of thought leadership and action behind us.

Our stakeholders demand of us the highest standards in terms of business ethics, diversity, and eventually expect us to maximize our positive impact on society through our business and the way we conduct it. We embrace this responsibility in thinking that **all our business will be ESG by design**. Ten years from now, there will be nothing left without an ESG focus at its core. Fiscal policy, corporates and sell side and buy side will be profoundly transformed.

4.

RELENTLESS FOCUS ON OPERATING LEVERAGE

We will be **fostering excellence** through a pro-active adaptation of our processes and organization. We will continue making cost control and efficiency a permanent focus of our execution. But there will be no cost reduction by business attrition.

5.

FOSTER BEST IN CLASS MARKET RISK STANDARDS, AND KEEP OUR STRONG CREDIT RISK PROFILE AS A DIFFERENTIATING FACTOR

In the spirit of seeking more balance in our value creation chain, **we de-risked our structured products business** within a broader decision to lower our overall market risk appetite. The quality of the strategic repositioning we designed allowed us basically to reduce dramatically our risks **while preserving our franchise**. A simple testament to the strength and leadership of our Equity Derivatives franchise.

On the credit risk side, we have a longstanding track record, and have a proactive management of our credit portfolio, having built overtime a strong risk expertise throughout the value chain, from front-offices to back offices.

Frédéric Oudéa,
Chief Executive Officer

“ Wholesale banking, at its core, is about fuelling societal needs by sharing and managing associated risks for clients and other counterparts.

These clients, as much as the public authorities, rely on a few competitive, loyal and capable European banks. Societe Generale is one of them.

And it will continue to be.”

Slawomir Krupa,
Head of Global Banking and Investor Solutions

“ We have a promising trajectory in front of us, with a resilient double-digit return on capital by 2023.

Thanks to further diversification and sustainable growth, we will continue to be well positioned to deliver high added-value solutions to our clients, around the world, as their reliable banking partner.”
