

PRESENTATION TO DEBT INVESTORS

2nd QUARTER AND 1st HALF 2022 RESULTS

**THE FUTURE
IS YOU**  **SOCIETE
GENERALE**

DISCLAIMER

The financial information on Societe Generale for its second quarter and first half 2022 financial results comprises this presentation and a dedicated press release which are available on the website:

<https://investors.societegenerale.com/en>.

This presentation contains forward-looking statements relating to the targets and strategies of the Societe Generale Group. These forward-looking statements are based on a series of assumptions, both general and specific, in particular the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union, as well as the application of existing prudential regulations. These forward-looking statements have also been developed from scenarios based on a number of economic assumptions in the context of a given competitive and regulatory environment. The Group may be unable to:

- anticipate all the risks, uncertainties or other factors likely to affect its business and to appraise their potential consequences;
- evaluate the extent to which the occurrence of a risk or a combination of risks could cause actual results to differ materially from those provided in this document and the related presentation.

Therefore, although Societe Generale believes that these statements are based on reasonable assumptions, these forward-looking statements

are subject to numerous risks and uncertainties, in particular in the Covid-19 crisis and Ukraine war context, including matters not yet known to it or its management or not currently considered material, and there can be no assurance that anticipated events will occur or that the objectives set out will actually be achieved.

Important factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements include, among others, overall trends in general economic activity and in Societe Generale's markets in particular, regulatory and prudential changes, and the success of Societe Generale's strategic, operating and financial initiatives.

More detailed information on the potential risks that could affect Societe Generale's financial results can be found in the section "Risk Factors" in our Universal Registration Document filed with the French Autorité des Marchés Financiers (which is available on <https://investors.societegenerale.com/en>).

Investors are advised to take into account factors of uncertainty and risk likely to impact the operations of the Group when considering the information contained in such forward-looking statements. Other than as required by applicable law, Societe Generale undertakes no does not undertake any obligation to update or revise any forward-looking information or statements.

Unless otherwise specified, the sources for the business rankings and market positions are internal. This presentation includes information pertaining to our markets and our competitive positions therein. Such information is based on market data and our actual revenues in those markets for the relevant periods. We obtained this market information from various third-party sources (publications, surveys and forecasts) and our own internal estimates. We have not independently verified these third-party sources and cannot guarantee their accuracy or completeness and our internal surveys and estimates have not been verified by independent experts or other independent sources.

The financial information presented for the financial year ending 30 June 2022 was approved by the Board of Directors on 2 August 2022. It has been prepared in accordance with IFRS as adopted in the European Union and applicable at this date. The limited review procedures on the condensed interim financial statements at 30 June 2022 carried by the Statutory Auditors are currently underway.

1. KEY HIGHLIGHTS AND GROUP PERFORMANCE

STRONG UNDERLYING RESULTS

GROUP NET INCOME

EUR 1.5bn⁽¹⁾

-EUR 1.5bn reported

incl. the impact of the Russian disposal
for EUR 3.3bn before tax
in Q2 22

ROTE

10.5%⁽¹⁾

in Q2 22

Excellent business performance

Revenues

+12.8% (+13.4%*)

vs. Q2 21

Record quarter for private banking,
F&A, ALD and international retail

Strong performance in Global Markets

Solid commercial activity in
French retail

Cost/income ratio

61.8%⁽²⁾

in Q2 22

High asset quality

Cost of risk

15 bps

in Q2 22

Limited defaults

High level of S1/S2
provisions

Solid capital

CET 1

12.9%⁽³⁾

at end of Q2 22

~360 bps over MDA

Launch of the 2021 share buy-backs

~ EUR 915m

Provision for 2022 distribution

~EUR 1.44⁽⁴⁾

per share at H1-22

H1 22 underlying Group net result⁽¹⁾ of **EUR 3.1bn (+16.3% vs. H1 21)**
H1 22 reported Group net result of **-EUR 640m**

(1) Underlying data: adjusted for exceptional items (see Supplement) (2) Underlying and excluding the contribution to the Single Resolution Fund

(3) Including IFRS9 phasing, 12.8% fully-loaded (4) Based on a payout of 50% of the underlying group net income after deduction of interest on deeply subordinated notes and undated subordinated notes

* When adjusted for changes in Group structure and at constant exchange rates

HIGH GROSS OPERATING INCOME IN Q2 22

Gross Operating Income

_Underlying gross operating income⁽¹⁾

Positive jaws

_Change in underlying revenues and costs⁽¹⁾

Cost/income ratio

_Underlying cost/income⁽¹⁾ excluding SRF⁽²⁾

(1) Underlying data: adjusted for exceptional items (see Supplement)

(2) Single Resolution Fund

STRONG POSITIVE JAWS IN H1 22

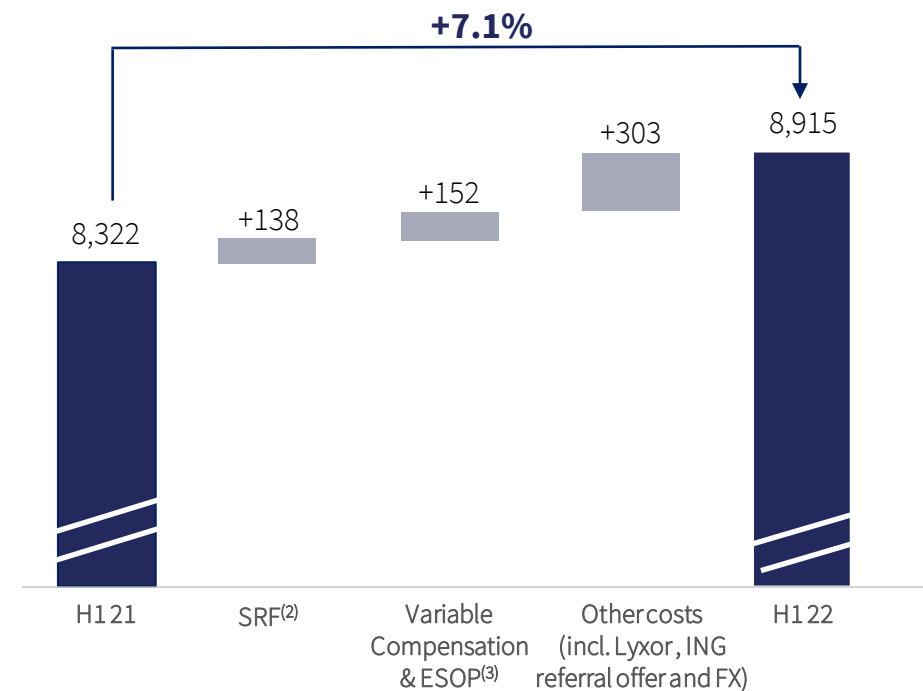

Excellent performance across businesses

_Revenues H1 22/H1 21 (EURm)

Continuous cost discipline

_Underlying costs⁽¹⁾ H1 22/H1 21 (EURm)

2022 underlying cost/income ratio excl. SRF expected **between 64% - 66%**

(1) Underlying data: adjusted for exceptional items (see Supplement)

(2) Single Resolution Fund

(3) Group Employee Share Ownership Programme

LOW COST OF RISK

_Cost of risk⁽¹⁾ (in bp)

Gross coverage ratio: 50% at end-June 22

2022 Cost of risk confirmed between **30-35 bps**

(1) Calculated based on Gross loans outstanding at the beginning of period (annualised)

(2) According to new EBA methodology published on 16 July 2019. The NPL rate calculation was modified in order to exclude the net accounting value of the tangible assets for operating lease from the gross exposure in the denominator. Historical data restated (see Supplement)

CONTINUED PRUDENT PROVISIONING

Limited defaults

_Cost of risk (in EURm)

Further strengthening of S1/S2 total provisions

_Total S1/S2 provisions⁽¹⁾ (in EURm)

(1) Quarterly variation of provisions for S1/S2 is not strictly matching the net S1/S2 cost of risk mainly due to FX impact

RUSSIAN OFF-SHORE CREDIT EXPOSURE

Portfolio managed in run-off mode since end February

- Reduced EAD at EUR 2.6bn as of 30 June 2022 (i.e. EUR 1.9bn of RWA)

- Repayment flows consistent with contractual amortisation terms

_Evolution of exposure at default (EURbn)

Best estimate to date of the net Exposure at Risk < EUR 1bn⁽¹⁾

Total provisions on offshore exposure at EUR 377m as of 30 June 22
o/w EUR 139m cost of risk in Q2 22

Residual EAD to Rosbank of ~EUR 0.5bn

- Mainly letters of credit and performance guarantees

(1) Excluding replacement risk and before provisions

Residual exposure mainly composed of secured structured transactions

_Exposure at default by sectors at 30 June 22

_Corporate gross exposure by type at 30 June 22

LEADING THE ENERGY TRANSITION WITH FLAGSHIP TARGETS

CREDIT RATING OVERVIEW

Credit Rating as of August 2022

Good fundamentals

S&P: “Diverse business model by geography and segment”

Moody’s: “Strong franchise and well-diversified universal banking business model”

Fitch: “The bank's ratings remain supported by a diversified company profile, resilient earnings generation and a sound liquidity profile”

Strong funding & liquidity

S&P: “SG’s volumes of bail-in-able debt issued and its policy to keep a high bail-in-able buffer support the current two notches of ALAC uplift.”

Moody’s: “Our advanced LGF analysis indicates an extremely low loss-given-failure for junior depositors and senior unsecured creditors, resulting in a three-notch uplift in the relevant ratings from the firm’s baa2 Adjusted BCA ”

Fitch: “French banks generally have a sound liquidity profile balanced between client deposits and wholesale funding, which should further be supported by the new facilities offered by the ECB”

	Fitch	Moody’s	S&P
LT/ST Counterparty	A(dcr)	A1(cr)/P-1(cr)	A/A-1

*Figures calculated on on-balance sheet customer loans and advances, deposits at banks and loans due from banks, finance leases, excluding loans and advances classified as held for sale, cash balances at central banks and other demand deposits, in accordance with the EBA/ITS/2019/02 Implementing Technical Standards amending Commission Implementing Regulation (EU) No 680/2014 with regard to the reporting of financial information (FINREP). The NPL rate calculation was modified in order to exclude from the gross exposure in the denominator the net accounting value of the tangible assets for operating lease. Performing and non-performing loans include loans at fair value through profit or loss which are not eligible to IFRS 9 provisioning and so not split by stage. Historical data restated

(1) Data restated excluding loans at fair value through profit or loss which are not eligible to IFRS 9 provisioning

FOCUS ON EXPOSURES

Corporate portfolio breakdown

Corporate EAD⁽¹⁾ in each sector in % of total group EAD
at 30.06.2022

Total group EAD: **EUR 1,118bn**

Exposure to sensitive sectors

POWER UTILITIES IN EUROPE: 1.1% of total Group EAD

ACCOMMODATION*: 0.3% of total Group EAD

CATERING*: 0.3% of total Group EAD

AIRLINES: 0.3% of total Group EAD, mostly secured

COMMERCIAL REAL ESTATE: disciplined origination with average LTV ranging between 55% and 60% and limited exposure on Retail Assets (15%)

DIRECT GROUP LBO EXPOSURE: **EUR~6bn**

SME REPRESENT ~5% OF TOTAL GROUP EAD (mostly in France)

() As per the decree n° 2020-1770 published in France on 30.12.2020 (both Corporate and Retail exposure)
Accommodation: hotels, campsites, holiday homes, resorts, holiday centers, etc.
Catering: restaurants, cafes, collective catering, etc.*

(1) EAD for the corporate portfolio as defined by the Basel regulations (large corporate including insurance companies, funds and hedge funds, SME, specialised financing and factoring) based on the obligor's characteristics before taking account of the substitution effect. Total credit risk (debtor, issuer and replacement risk). Corporate EAD : EUR 399bn

IFRS 9 MONITORING

METHODOLOGY APPLIED

As of Q2 22, IFRS 9 parameters were updated in order to take into account the current economic environment:

- 3 macroeconomic scenarios were retained to capture the uncertainties around the war in Ukraine and the continuation of the Covid19 pandemic: central, favourable and stress. The central scenario assumes that the growth in the eurozone would be lower in 2022 and 2023 due to a high level of inflation and the probable recession scenario in case of the termination of energy supply from Russia.
- Additional sector / areas-at-risk adjustments to compensate for more favorable macroeconomic parameters

MACROECONOMIC SCENARIOS (FRANCE GDP GROWTH)

*scenario weighting in IFRS 9 expected credit loss calculation

GROUP

CHANGE IN TRADING VAR* AND STRESSED VAR**

_Quarterly Average of 1-Day, 99% Trading VaR* (in EURm)

Stressed VAR** (1 day 99%, in EUR M)	Q2 21	Q3 21	Q4 21	Q1 22	Q2 22
Minimum	23	23	24	23	18
Maximum	48	58	64	48	52
Average	35	38	39	32	30

* Trading VaR: measurement over one year (i.e. 260 scenarios) of the greatest risk obtained after elimination of 1% of the most unfavourable occurrences

** Stressed VaR : Identical approach to VaR (historical simulation with 1-day shocks and a 99% confidence interval), but over a fixed one-year historical window corresponding to a period of significant financial tension instead of a one-year rolling period

Public-Private Partnerships for schools in New Zealand

Financial Advisor

NZD 245m refinancing of two Public Private Partnership Projects representing the 1st and 2nd schools projects to be accredited as Sustainability Loans in New Zealand

METHODOLOGY (1/2)

1 – Net banking income

The pillars' net banking income is defined on page 41 of Societe Generale's 2022 Universal Registration Document. The terms "Revenues" or "Net Banking Income" are used interchangeably. They provide a normalised measure of each pillar's net banking income taking into account the normative capital mobilised for its activity.

2 – Operating expenses

Operating expenses are defined on page 41 of Societe Generale's 2022 Universal Registration Document. The term "costs" is also used to refer to Operating Expenses.

The Cost/Income Ratio is defined on page 41 of Societe Generale's 2022 Universal Registration Document.

3 – IFRIC 21 adjustment

The IFRIC 21 adjustment corrects the result of the charges recognised in the accounts in their entirety when they are due (generating event) so as to recognise only the portion relating to the current quarter, i.e. a quarter of the total. It consists in smoothing the charge recognised accordingly over the financial year in order to provide a more economic idea of the costs actually attributable to the activity over the period analysed.

The contribution to **Single Resolution Fund** ("SRF") are part of the charges adjusted from IFRIC 21. They include the national resolution funds within the EU.

4 – Exceptional items – transition from accounting data to underlying data

The Group may be required to provide underlying indicators for a clearer understanding of its actual performance. Underlying data is obtained from reported data by restating the latter to take into account exceptional items and the IFRIC 21 adjustment

The Group restates also the revenues and earnings of the French Retail Banking pillar for PEL/CEL provision allocations or write-backs. This adjustment makes it easier to identify the revenues and earnings relating to the pillar's activity, by excluding the volatile component related to commitments specific to regulated savings.

Details of these items, as well as the other items that are the subject of a one-off or recurring restatement (exceptional items) are given in the supplement.

5 – Cost of risk in basis points, coverage ratio for non-performing loans

The cost of risk is defined on pages 43 and 663 of Societe Generale's 2022 Universal Registration Document. This indicator makes it possible to assess the level of risk of each of the pillars as a percentage of balance sheet loan commitments, including operating leases. The gross coverage ratio for non-performing loans or "doubtful outstandings" is calculated as the ratio of provisions recognised in respect of the credit risk to gross outstandings identified as in default within the meaning of the regulations, without taking account of any guarantees provided. This coverage ratio measures the maximum residual risk associated with outstandings in default ("non-performing").

METHODOLOGY (2/2)

6 – ROE, RONE, ROTE

The notion of ROE (Return On Equity) and ROTE (Return On Tangible Equity), as well as the methodology for calculating it, are specified on pages 43 and 44 of Societe Generale's 2022 Universal Registration Document. This measure makes it possible to assess return on equity and Societe Generale's return on tangible equity.

RONE (*Return on Normative Equity*) determines the return on average normative equity allocated to the Group's businesses, according to the principles presented on page 44 of Societe Generale's 2022 Universal Registration Document.

The net result by the group retained for the numerator of the ratio is the net profit attributable to the accounting group adjusted by the interest to be paid on TSS & TSDI, interest paid to the holders of TSS & TSDI amortization of premiums issues and the impairment of goodwill.

7 – **Net assets and tangible net assets** are defined in the methodology, page 46 of the Group's 2022 Universal Registration Document.

8 – Calculation of Earnings Per Share (EPS)

The EPS published by Societe Generale is calculated according to the rules defined by the IAS 33 standard (see page 45 of Societe Generale's 2022 Universal Registration Document). The corrections made to Group net income in order to calculate EPS correspond to the restatements carried out for the calculation of ROE and ROTE. For indicative purpose, the Group also publishes EPS adjusted for the impact of exceptional items and for IFRIC 21 adjustment (Underlying EPS).

9 – The Societe Generale **Group's Common Equity Tier 1** capital is calculated in accordance with applicable CRR2/CRD5 rules. The phased-in ratios include the earnings for the current financial year and the related provision for dividends. The difference between phased-in ratio and fully-loaded ratio is related to the IFRS 9 impacts. The leverage ratio is calculated according to applicable CRR2/CRD5 rules including the phased-in follows the same rationale as solvency ratios.

10 – The **liquid asset buffer or liquidity reserve** includes 1/ central bank cash and deposits recognised for the calculation of the liquidity buffer for the LCR ratio, 2/ liquid assets rapidly tradable in the market (High Quality Liquid Assets or HQLA), unencumbered net of haircuts, as included in the liquidity buffer for the LCR ratio and 3/ central bank eligible assets, unencumbered net of haircuts.

11 – The **"Long Term Funding" outstanding** is based on the Group financial statements adjusted by the following items for a more economic reading: interbank liabilities and debt securities issued with a maturity above one year at inception. Issues placed in the Group's Retail Banking networks (recorded in medium/long-term financing) are removed from the total of debt securities issued.

Note: The sum of values contained in the tables and analyses may differ slightly from the total reported due to rounding rules.

All the information on the results for the period (notably: press release, downloadable data, presentation slides and supplement) is available on Societe Generale's website www.societegenerale.com in the "Investor" section.
