The Base Prospectus, as supplemented (including by this First Supplement), constitutes a base prospectus for the purpose of Regulation (EU) 2017/1129 (the **Prospectus Regulation**). Terms defined in the Base Prospectus have the same meaning when used in this First Supplement.

The Issuer has prepared this First Supplement pursuant to article 23 of the Prospectus Regulation for the purposes of updating the Base Prospectus with the 2022 half year financial statements of the Issuer. Application has been made to the *Autorité des marchés financiers* (the **AMF**) as competent authority under the Prospectus Regulation for approval of this First Supplement. To the extent that there is any inconsistency between (a) any statement in this First Supplement and (b) any other statement in, or incorporated by reference in, the Base Prospectus, the statements in (a) above will prevail.

In accordance with Article 23(2) of the Prospectus Regulation, to the extent applicable, investors who have already agreed to purchase or subscribe for the Notes before this First Supplement is published have the right, exercisable within three (3) working days after the publication of the supplement (no later than 2 December 2022), to withdraw their acceptances, provided that the significant new factor, material mistake or material inaccuracy arose or was noted before the closing of the offer period or the delivery of the Notes, whichever occurs first. Investors may contact the Authorised Offeror(s) should they wish to exercise the right of withdrawal.

This First Supplement will be published so long as Notes are admitted to trading on Euronext Paris, the regulated market of the Luxembourg Stock Exchange and/or any other such regulated market in accordance with the Prospectus Regulation, the Final Terms relating to such Notes will be available on the websites of the AMF ([www.amf-france.org](http://www.amf-france.org)) and/or the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)) and/or any other such regulated market, as the case may be, and of the Issuer (<http://prospectus.socgen.com>).

**APPROVAL FROM THE *AUTORITE DES MARCHES FINANCIERS***

This First Supplement has been approved on 29 November 2022 under the approval number n°22-471 by the AMF, in its capacity as competent authority under Regulation (EU) 2017/1129.

The AMF has approved this First Supplement after having verified that the information it contains is complete, coherent and comprehensible.

This approval is not favourable opinion on the Issuer and on the quality of the Notes described in this First Supplement. Investors should make their own assessment of the opportunity to invest in such Notes.

## 1.1 RISK FACTORS

1.1.1 In section “**RISK FACTORS**” on pages 15 and 16, risk factor “**Liquidity risks**” is deleted and replaced as follows:

The Issuer’s liquidity risk is defined as the risk of not being able to meet its payment obligations under the Notes when they fall due, because of the temporary lags between the amortization profile of its assets and liabilities.

A number of exceptional measures taken by governments, central banks and regulators as well as a downgrade in Société Générale group's (including the Issuer, the "Group") external rating or in the sovereign rating of the French State could have a significant negative impact on the Issuer’s cost of financing, its access to liquidity. Moreover, a lack of liquidity could have a significant negative impact on the Issuer’s capacity to repay the Notes on a short-term period. As of 30 June 2022, the maximum exposure of the Issuer for the next 180 days could be estimated up to 2.5 billion euros, representing the maximum cumulated amount of Notes falling due under this period. From a long-term perspective, the negative impact is lowered due to the ability of the Issuer to gather the necessary cash-flows under the collateralised assets.

Furthermore, in past crises (such as the 2008 financial crisis, the Eurozone sovereign debt crisis, the tensions on the financial markets linked to the Covid-19 pandemic before the intervention of the central banks or more recently the tensions linked to the crisis in Ukraine), access to financing from European banks was intermittently restricted or subject to less favorable conditions. If unfavorable debt market conditions were to reappear following a new systemic or Group-specific crisis, the effect on the liquidity of the European financial sector in general could be very significantly unfavorable and could have a negative impact on the average interest margin between the cover pool assets and the Notes of Société Générale SCF, without affecting its financial situation and its social accounts.

In any case, if the Issuer is not able to cover its liquidity needs, the Issuer's ability to make payments under the Notes may be negatively affected. As a result, Noteholders could lose all or a substantial part of their investment in the Notes.

However, as a specialized credit institution, the Issuer is subject to the production of indicators making it possible to measure, manage and monitor this risk (see section entitled "Summary of the legislation and regulations relating to sociétés de crédit foncier and other legal issues"). As of 30 June 2022, none of the threshold of these indicators has been triggered.

With respect to the liquidity coverage requirements pursuant to the CRD V package (as defined below), as of 30 June 2022, the Issuer is not obliged to hold stocks of liquid assets to maintain its liquidity coverage ratio ("LCR") beyond 100%. Nonetheless, the Issuer's LCR is structurally higher than 100%. At the date of this Base Prospectus, the Issuer also complies with the minimum requirement of 100% regarding the net stable funding ratio ("NSFR").

To finance any temporary liquidity needs, the Issuer also benefits from the ALM management tools and instruments provided to it by the laws and regulations applicable to SCF in order to fund temporary liquidity needs. See section entitled "Summary of the legislation and regulations relating to SCF and other legal issues" for the full list of these tools and instruments.

1.1.2 In section “**RISK FACTORS**” on pages 17 to 19, the risk factors under sub-category “**Credit risks**” are deleted and replaced as follows:

The Issuer is the only entity which has obligations to pay principal and interest in respect of the Notes. The Notes will not be obligations or responsibilities of any other entity, including (but not limited to) Société Générale (in any capacity but in particular in its capacity as Borrower, Collateral Provider, Arranger, Calculation Agent, Dealer, Fiscal Agent, Paying Agent and Principal Paying Agent) or any company within the Group, or the shareholders or directors or agents of any company in the same group of companies as any of them. As of 30 June 2022, the outstanding amount of Notes issued by the Issuer is €12.72 billion (without interest).

The ability of the Issuer to make payments under the Notes depends on the creditworthiness of its debtors and globally on the credit quality of its assets which consist (i) initially in the loans made available to the Borrower (Société Générale) under the Facility Agreement, and therefore the financial soundness and conduct of the Borrower could adversely affect the Issuer’s results of operations and financial position and (ii) following the occurrence of an event of default of the Borrower under the Facility Agreement, in the public exposures transferred (remis en pleine propriété à titre de garantie) as Collateral Security under the Collateral Security Agreement.

### 3.1.1 Credit risks on Société Générale

The Issuer is directly exposed on Société Générale as sole Borrower under the loans granted under the Facility Agreement. However, this credit risk is covered by the transfer of full title by way of assignment (remise en pleine propriété à titre de garantie) of a portfolio of assets that meet regulatory eligibility criteria and the requirement for Société Générale to maintain at any time a minimum level of cover ratio between the public exposures transferred as Collateral Security and the outstanding amount of the loans made available under the Facility Agreement, as specified under the Collateral Security Agreement (see section entitled "*Relationship between Société Générale SCF and Société Générale*"). It is worth noting that the Issuer shall maintain at any time a minimum legal cover ratio of 105% and the cover ratio of the Issuer as of 30 June 2022 certified by the Cover Pool Monitor was 128.50%.

Failure to maintain compliance with such requirements may result in, if not remedied, a mandatory repayment event under the Facility Agreement and, if Société Générale cannot repay in full the loans granted under the Facility Agreement and the public exposures transferred as Collateral Security are not sufficient to pay in full the amounts payable under the Notes, the Issuer may have insufficient funds to meet its obligations under the Notes. As a result, Noteholders could lose all or a substantial part of their investment in the Notes.

### 3.1.2 Credit risks on the assets of the Issuer

#### **Debtors' ability to pay following enforcement of the Collateral Security**

The debtors are either public entities or private entities whose obligations are secured by public entities complying with the eligibility criteria provided for by Article L.513-4 of the French Monetary and Financial Code. Therefore, the Issuer may be exposed to the occurrence of credit risk in relation to the debtors. As of 30 June 2022, the public exposures transferred (remis en pleine propriété à titre de garantie) as Collateral Security amounted to €16,299.2 million and were mainly constituted of loans to French local authorities.

If following enforcement of the Collateral Security pursuant to the Collateral Security Agreements, the Issuer does not receive the full amount due from such debtors, or as the case may be, by their guarantors, in respect of such public entities' exposures, this may affect the ability of the Issuer to make payments under the Notes.

None of the Borrower under the Facility Agreement, the Issuer or any other party to the Programme does guarantee or warrant full and timely payment by the debtors of any sums payable under such public entities' exposures.

As a result, the Issuer's ability to meet its obligations under the Notes may be materially adversely affected.

However, this risk can be assessed as relatively low as all public exposures of the Collateral Security fall into the investment grade category with more than 83% of the Collateral Security being exposed to French sovereign risk and for which observed loss rate is close to zero, as of the date of the Base Prospectus.

#### **No prior notification to debtors under the public exposures transferred as Collateral Security**

The Collateral Security Agreement will provide that the relevant public exposures will be transferred (remis en pleine propriété à titre de garantie) as Collateral Security pursuant to the provisions of Article L.211-38 of the French Monetary and Financial Code, without notification or information of the debtors under such public exposures. Such debtors will only be notified in case of enforcement of the Collateral Security by the Issuer. As long as no such notification has taken place, any payments made by the debtors under the relevant public exposures will continue to be validly made by such debtors to Société Générale.

Each debtor may further raise defences (which may include, as applicable, any set-off right) against the Issuer arising from such debtor's relationship with its creditor to the extent that such defences (i) are existing prior to the notification of the transfer of the relevant public exposures or (ii) arise out of mutual claims (compensation de créances connexes) between the debtor and its creditor which are closely connected with that public exposures (irrespective of whether such notification has been made before or after such claims have arisen).

The notification to the debtors may not be made at the times required and there can be no guarantee or assurance as to the ability of the Issuer to obtain effective direct payment from the debtors in a sufficient timely manner, which may affect payments under the Notes. Until notification to the debtors has been made and provided that, at such time, an insolvency proceeding has been opened against Société Générale, French insolvency law will prevent the Issuer from

recovering from Société Générale any collections received by it under the relevant public exposures which are commingled with other funds of Société Générale.

These may affect the repayment value of the loan and therefore the ability for the Issuer to meet its payment obligations under the Notes.

As of 30 June 2022, the public exposures transferred (remis en pleine propriété à titre de garantie) as Collateral Security amounted to €16,299.2 million.

However, these risks are mitigated by a cash collateral (gage-espèces) to be funded by Société Générale if its credit ratings are downgraded below certain minimum rating levels (a "Rating Downgrade Event") for an amount equal to the aggregate amount of collections (interest and principal) scheduled to be received by Société Générale under the public exposures transferred as Collateral Security during the two (2) calendar months following the occurrence of a Rating Downgrade Event (see section entitled "Relationship between Société Générale SCF and Société Générale").

### **Maintenance of value of the Collateral Security**

Under the Collateral Security Agreements, Société Générale is required to ensure that at any time the value of the Collateral Security is at least equal to the aggregate amounts of loans made available by the Issuer to Société Générale under the Facility Agreement (including, in particular, any amount of interests and any other amounts due and payable on such date by the Borrower under the Facility Agreement). As of 30 June 2022, the aggregate amounts of loans made available by the Issuer to Société Générale is equal to €12.72 billion (without interest). More details on the cover ratio are available on the website of Société Générale: [Investisseurs dette - Société Générale \(societegenerale.com\)](https://www.societegenerale.com/fr/investisseurs-dette).

Failure by Société Générale to maintain the value of the Collateral Security at the above-mentioned level may result in the Issuer having insufficient funds to meet its obligations under the Notes.
