Frédéric Oudéa, the Group's Chief Executive Officer, commented:

"In an increasingly complex geopolitical and economic environment, Societe Generale posts, once again, excellent results, with both a very solid commercial performance and profitability. The third quarter is marked by increasing revenues, continued control of operating expenses and a contained cost of risk, while maintaining a prudent provisioning policy. We continue to make good progress on the execution of our strategic initiatives, with several major milestones achieved, notably on the merger of the retail banking networks in France and the finalisation of the partnership between Boursorama and ING. Furthermore, on September 30th, the Board of Directors decided that at the next General Meeting it would propose Slawomir Krupa as Board member to be my successor as Chief Executive Officer of the Group in May 2023. The coming months will enable us to continue to implement the strategic initiatives underway, which would ensure sustainable growth and profitability, while together ensuring an effective and orderly transition."

The latter saw its activities grow +13.0%* vs. Q3 21. In 9M 22, underlying operating expenses were up +5.4% vs. 9M 21 at EUR 13,273 million (EUR 14,020 million on a reported basis). This rise can be explained primarily by the higher contribution to the Single Resolution Fund (EUR +208 million), the increase in the variable elements of employee remuneration including the Global Employee Share Ownership Plan (EUR +142 million) and currency effects (EUR +165 million). Excluding these variable elements, the increase in other expenses was limited at EUR 164 million vs. 9M 21 (+1.3%).

Overall, underlying gross operating income increased by 2.9% in Q3 22 to EUR 2,470 million and the underlying cost to income ratio, excluding the Single Resolution Fund, decreased to 60.7%.

The good momentum in Romania and Western Europe was offset by a slowdown in the Czech Republic notably due to a shift towards financial savings.

In Africa, Mediterranean Basin and French Overseas Territories, outstanding loans confirmed their rebound, with an increase of +7.0%*. Outstanding deposits continued to enjoy a good momentum, up +6.2%*.

In the Insurance business, life insurance outstandings totalled EUR 130 billion at end-September 2022. Revenues in Europe climbed +14.5%* vs. Q3 21, due primarily to substantial growth in net interest income (+16.2%* vs. Q3 21), driven by the Czech Republic (+41.1%* vs. Q3 21) and Romania (+20.1%* vs. Q3 21).

The Africa, Mediterranean Basin and French Overseas Territories scope posted revenues up +10.5%* vs. Q3 21 at EUR 485 million, driven by all the entities.

Financial Services' net banking income was substantially higher (+19.0%*) than in Q3 21, at EUR 719 million. This performance is due primarily at ALD level to a good commercial momentum, a strong used car sale result (EUR 3,149 per vehicle in 9M 22), a depreciation adjustment and, to a lesser extent, the transfer to hyperinflation accounting for activities in Turkey. Financial Services' net banking income totalled EUR 2,131 million in 9M 22, up +35.0%* vs. 9M 21.

This document contains forward-looking statements relating to the targets and strategies of the Societe Generale Group.

These forward-looking statements are based on a series of assumptions, both general and specific, in particular the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union, as well as the application of existing prudential regulations.

These forward-looking statements have also been developed from scenarios based on a number of economic assumptions in the context of a given competitive and regulatory environment. The Group may be unable to:

- anticipate all the risks, uncertainties or other factors likely to affect its business and to appraise their potential consequences;
- evaluate the extent to which the occurrence of a risk or a combination of risks could cause actual results to differ materially from those provided in this document and the related presentation.

Therefore, although Societe Generale believes that these statements are based on reasonable assumptions, these forward-looking statements are subject to numerous risks and uncertainties, including matters not yet known to it or its management or not currently considered material, and there can be no assurance that anticipated events will occur or that the objectives set out will actually be achieved. Important factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements include, among others, overall trends in general economic activity and in Societe Generale's markets in particular, regulatory and prudential changes, and the success of Societe Generale's strategic, operating and financial initiatives.

More detailed information on the potential risks that could affect Societe Generale's financial results can be found in the section "Risk Factors" in our Universal Registration Document filed with the French Autorité des Marchés Financiers (which is available on <https://investors.societegenerale.com/en>).

9. APPENDIX 2: METHODOLOGY

1 - The financial information presented for the third quarter and the first nine months of 2022 was examined by the Board of Directors on November 3rd, 2022 and has been prepared in accordance with IFRS as adopted in the European Union and applicable at that date. This information has not been audited.

2 - Net banking income

The pillars' net banking income is defined on page 41 of Societe Generale's 2022 Universal Registration Document. The terms "Revenues" or "Net Banking Income" are used interchangeably. They provide a normalised measure of each pillar's net banking income taking into account the normative capital mobilised for its activity.

3 - Operating expenses

Operating expenses correspond to the "Operating Expenses" as presented in note 8.1 to the Group's consolidated financial statements as at December 31st, 2021 (pages 482 et seq. of Societe Generale's 2022 Universal Registration Document). The term "costs" is also used to refer to Operating Expenses. The Cost/Income Ratio is defined on page 41 of Societe Generale's 2022 Universal Registration Document.

4 - IFRIC 21 adjustment

The IFRIC 21 adjustment corrects the result of the charges recognised in the accounts in their entirety when they are due (generating event) so as to recognise only the portion relating to the current quarter, i.e. a quarter of the total. It consists in smoothing the charge recognised accordingly over the financial year in order to provide a more economic idea of the costs actually attributable to the activity over the period analysed.

The contributions to **Single Resolution Fund (« SRF »)** are part of IFRIC21 adjusted charges, they include contributions to national resolution funds within the EU.

5 – Exceptional items – Transition from accounting data to underlying data

It may be necessary for the Group to present underlying indicators in order to facilitate the understanding of its actual performance. The transition from published data to underlying data is obtained by restating published data for exceptional items and the IFRIC 21 adjustment.

Moreover, the Group restates the revenues and earnings of the French Retail Banking pillar for PEL/CEL provision allocations or write-backs. This adjustment makes it easier to identify the revenues and earnings relating to the pillar's activity, by excluding the volatile component related to commitments specific to regulated savings.

The reconciliation enabling the transition from published accounting data to underlying data is set out in the table below:

in EUR m	Q3 22	Q3 21	9M 22	9M 21

6 - Cost of risk in basis points, coverage ratio for doubtful outstandings

The cost of risk is defined on pages 43 and 663 of Societe Generale's 2022 Universal Registration Document. This indicator makes it possible to assess the level of risk of each of the pillars as a percentage of balance sheet loan commitments, including operating leases.

In EURm		Q3 22	Q3 21	9M 22	9M 21
French Retail Banking	Net Cost Of Risk	196	8	264	145

	Gross loan Outstandings	580,663	533,711	575,893	524,659
	Cost of Risk in bp	31	15	29	16

The **gross coverage ratio for doubtful outstandings** is calculated as the ratio of provisions recognised in respect of the credit risk to gross outstandings identified as in default within the meaning of the regulations, without taking account of any guarantees provided. This coverage ratio measures the maximum residual risk associated with outstandings in default ("doubtful").

7 - ROE, ROTE, RONE

The notions of ROE (Return on Equity) and ROTE (Return on Tangible Equity), as well as their calculation methodology, are specified on page 43 and 44 of Societe Generale's 2022 Universal Registration Document. This measure makes it possible to assess Societe Generale's return on equity and return on tangible equity.

RONE (Return on Normative Equity) determines the return on average normative equity allocated to the Group's businesses, according to the principles presented on page 44 of Societe Generale's 2022 Universal Registration Document.

Group net income used for the ratio numerator is book Group net income adjusted for "interest net of tax payable on deeply subordinated notes and undated subordinated notes, interest paid to holders of deeply subordinated notes and undated subordinated notes, issue premium amortisations" and "unrealised gains/losses booked under shareholders' equity, excluding conversion reserves". For ROTE, income is also restated for goodwill impairment.

Details of the corrections made to book equity in order to calculate ROE and ROTE for the period are given in the table below:
