SOCIETE GENERALE
MORGAN STANLEY
EUROPEAN FINANCIALS CONFERENCE
Frédéric Oudéa, Chairman & CEO

CREATING VALUE IN A DELEVERAGING ENVIRONMENT

28 MARCH 2012
This document may contain a number of forecasts and comments relating to the targets and strategies of the Societe Generale Group.

These forecasts are based on a series of assumptions, both general and specific, notably - unless specified otherwise - the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union, as well as the application of existing prudential regulations.

This information was developed from scenarios based on a number of economic assumptions for a given competitive and regulatory environment. The Group may be unable:
- to anticipate all the risks, uncertainties or other factors likely to affect its business and to appraise their potential consequences;
- to evaluate precisely the extent to which the occurrence of a risk or a combination of risks could cause actual results to differ materially from those provided in this presentation.

There is a risk that these projections will not be met. Investors are advised to take into account factors of uncertainty and risk likely to impact the operations of the Group when basing their investment decisions on information provided in this document.

Unless otherwise specified, the sources for the rankings are internal.

The Group’s consolidated accounts at 31 December 2011 thus prepared were approved by the Board of Directors on 15 February 2012. The consolidated financial statements have been audited by the Statutory Auditors.

The financial information presented for the financial year ended 31 December 2011 has been prepared in accordance with IFRS as adopted in the European Union and applicable at this date.
Société Générale has significantly reduced its leverage ratio over the past 4 years.

The Group accelerated the reduction of its balance sheet since June 2011, at a limited cost and preserving client franchises.

Capital ratios are being strengthened in line with our Basel 3 Core Tier 1 target.

SG CIB is being transformed towards a more integrated, resource-light and distribution oriented model.

In a deleveraging environment our focus on costs and risk management remains critical.

Sound and robust business model, well positioned to create value in the new environment.
SOCIETE GENERALE GROUP

STRONG REDUCTION IN LEVERAGE IN THE LAST 4 YEARS

- Significant reduction in leverage ratio over the past four years
  - Strict control of balance sheet since 2007
  - Shareholder equity multiplied by 1.7x

- Accelerated balance sheet reduction since end June 2011, at limited cost and preserving client franchises
  - Significant adjustment made to Global Markets positions
  - EUR 13.1bn legacy assets disposals at less than 1% cost*
  - EUR 6.0bn loan sales at less than 3% cost*
  - SG CIB USD liquidity needs reduced by USD 55bn
  - No dependence on US money market funds resources at end-2011

* Management information, 2011 disposals
SG CIB 2013 liquidity needs reduction targets achieved
- Mainly through reduced short term liquidity needs

2012-2013: SG CIB liquidity needs to remain stable, but with a different mix
- Further loan sales to reduce long term needs
- Higher liquidity consumption of Global Markets

SG CIB RWAs will be further decreased through actions on legacy assets and further loan sales

Outside of SG CIB, business asset disposals to be realised by end-2013
- Liquidity need reduction of EUR 25-35bn
- Basel 3 RWA reduction of EUR 30-40bn
- 100bps positive impact on Basel 3 Core Tier 1

* All currencies
FURTHER IMPROVEMENT OF OUR FUNDING PROFILE

Sound and stronger funding profile:

- Short term funding: 19% of funded balance sheet, vs 39% in 2007
- Medium and long term funding up 42% vs 2007
- Customer deposits up 21% vs 2007

Liquid asset buffer* of EUR 84bn at end-December 2011

Lower end of our 2012 funding objective already reached

- EUR 10-15bn 2012 long term funding programme
- EUR 2.6bn prefunding in 2011
- EUR 7.6bn issued in 2012 to date
  - average maturity above 6.3 years**
  - average cost of funding below MS+150bps**

* EUR 58bn central bank eligible assets + EUR 26bn net available central bank deposits. Excludes EUR 9bn liquid assets that can be sold between 15 and 30 days
** Excluding securitization
*** Including EUR 350m tap issued on March 22, due to settle on April 2
STRENGTHENED CAPITAL RATIOS IN LINE WITH OUR BASEL 3 OBJECTIVE

- Strict control of RWAs
  - Driving SG CIB Basel 2 RWAs down by 13% in 2011
  - Contained RWA increase in other businesses
- 9.0% Core Tier 1 at end-2011 (Basel 2.5)
  - Reinforced retained earnings
  - No dividend payment on 2011 results
  - Active derisking and deleveraging
- On course to meet our Basel 3 Core Tier 1 objective by 2013

* Including legacy assets CT1 deductions
CORPORATE AND INVESTMENT BANKING

SIGNIFICANTLY OPTIMISED USE OF SG CIB BALANCE SHEET SINCE 2007

- SG CIB 2011 core revenues comparable to 2007
- … while using 26% less balance sheet
- … and with a lower risk profile
  - Market stress tests cut by 63% vs 2007
  - More client oriented businesses
  - Strict monitoring of liquidity consumption in trading activities
- “Originate to distribute” approach already initiated in our financing activities

* BNPP and CA CIB Financing activities
Today, SG CIB distributes one third of the loans it originates:

- Vanilla/slightly structured loans are largely distributed, mainly through syndication
- Structured loans are barely distributed

Pushing a US-like ‘originate to distribute’ model for the least structured activities

Comprehensive plan to increase distribution and liquidity over time for structured loans

- Educate investors about new asset classes
- Review origination practices to improve transferability and liquidity of assets
- Develop repackaging solutions (project bonds, securitisation…)
- Work on alternative distribution channels / partnership deals

Syndicated loan 2011 volumes: EMEA vs USA

Global project finance volumes: still largely relying on bank debt
TOWARDS A MORE INTEGRATED, RESOURCE-LIGHT, DISTRIBUTION ORIENTED MODEL

- Refocus on our core strengths
  - Natural resources financing, equity derivatives, cross assets structured products
  - European client base
  - Euro corporate bonds and Euro rates

- Shift towards a more distribution oriented model, leveraging on our capabilities
  - Leading Euro Corporate bond platform
  - N°4 bookrunner YTD on the growing market of USD bond issuance by European Corporates
  - Project financing expertise positioning us well to win Bond mandates

- Strong action on costs
  - 13% staff reduction initiated

- Value creation for the Group while maintaining prudent risk management

FRENCH NETWORKS

MAINTAIN STRONG PROFITABILITY WHILST TRANSFORMING THE OPERATING MODEL

- Priority to customer satisfaction
- Focus on deposit collection
  - Significant decrease of loan-to-deposit ratio over recent years
  - Successful campaign with French SMEs in Q4 11: EUR 3bn deposits collected
  - Development of transaction banking and cash management
- Industrialisation & pooling of information systems
  - Unification of information systems management between SG and CDN networks in H1 11
  - Roll-out of a multi-market portal for the SG network sales force in 2011
  - Migration of SMC on CDN’s IT system in April 2012

Resilient and profitable franchises

*Excluding PEL/CEL provisions

Developing Group franchises while optimising scarce resources

- Giving priority to customer satisfaction in our French Networks and maintaining strong profitability
- Consolidating our growth strategy in International Retail Banking
- Executing the transition of our Corporate and Investment Banking businesses towards a resource-light, distribution-oriented model
- Improving the contribution to Group results of our businesses in synergy, under resource constraints

Decreasing further our funding needs and strengthening our capital ratios

- Reducing long term needs in our CIB division through asset sales
- Realising business disposals over the next two years as planned

Sharpening our focus on costs

- Realising planned cost adjustments in International Retail and CIB
- Establishing a declining trend in cost/income ratio through intragroup synergies and pooling of IT systems

Meeting our Basel 3 capital targets for 2013
