DISCLAIMER

This document may contain a number of forecasts and comments relating to the targets and strategies of the Societe Generale Group.

These forecasts are based on a series of assumptions, both general and specific, notably - unless specified otherwise - the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union, as well as the application of existing prudential regulations.

This information was developed from scenarios based on a number of economic assumptions for a given competitive and regulatory environment. The Group may be unable:
- to anticipate all the risks, uncertainties or other factors likely to affect its business and to appraise their potential consequences;
- to evaluate precisely the extent to which the occurrence of a risk or a combination of risks could cause actual results to differ materially from those provided in this presentation.

There is a risk that these projections will not be met. Investors are advised to take into account factors of uncertainty and risk likely to impact the operations of the Group when basing their investment decisions on information provided in this document.

Unless otherwise specified, the sources for the rankings are internal.

The Group’s quarterly results at 31 March 2012 were reviewed by the Board of Directors on 2 May 2012.

The financial information presented for the first quarter 2012 has been prepared in accordance with IFRS as adopted in the European Union and applicable at this date. This information does not constitute a set of financial statements for an interim period as defined by IAS 34 “Interim Financial Reporting”. Societe Generale’s management intends to publish condensed half-yearly consolidated financial statements for the six-month period ending 30 June 2012.

Change in financial communication:

As from January 1st, 2012, the allocation of capital to the different businesses is based on 9% of risk-weighted assets at the beginning of the period, vs. 7% previously. The quarterly data related to allocated capital have been adjusted accordingly. At the same time, the normative capital remuneration rate has been adjusted for a neutral combined effect on the businesses’ historic revenues.

The Group has published all the historical quarterly results restated for 2010 and 2011.
SOCIETE GENERALE GROUP

GOOD PROGRESS IN TRANSFORMING THE GROUP

- SG CIB deleveraging execution in line with objectives announced in Q3 11

- Capital build up on track to meet Basel 3 capital requirements

- Continued strengthening of funding profile

- Low GIIPS exposure

- Ongoing transformation of SG CIB model towards a more integrated, resource-light and distribution oriented model

- Proven ability to maintain a sound business performance in a challenging context as shown in Q1 12
** Strong progress realized since June-11 on SG CIB balance sheet reduction programme with EUR 23.2*bn of asset disposals

** Liquidity needs reduced to target level by end-2011: to remain stable at current level
  - Further loan sales to compensate for higher liquidity consumption by Global Markets

** Basel 3 RWA reduction programme on track
  - EUR 16bn decrease realized in H2-11
  - Further reduction of c. EUR 15bn YTD**, mainly through legacy asset disposals and CDO dismantling

** 2012-2013: targeting 70 bp (Basel 3 CT1 ratio) impact from deleveraging
  - Nearly half secured as of June-12**

---

* Management information
** Letter of intent signed or deal executed as of June 13th
**MONEY GOOD ASSETS: LOW CAPITAL CONSUMPTION**

- Investment grade assets, without expected losses under BlackRock Solutions® stressed scenario for the securitised assets
- Net Book Value reduced by half to EUR 11.4bn since June-11, mainly aimed at reducing USD funding needs
- Relatively short weighted average life of 3.2 years
- Low capital consumption of EUR 0.9bn, equivalent to EUR 11bn Basel 3 RWA
- Future deleveraging strategy based on optimisation of carry and funding cost
- Accelerated sales would not be capital accretive

**Basel 3 Core Tier One pro forma**
CORPORATE & INVESTMENT BANKING

NON INVESTMENT GRADE: CAPITAL FOCUSED DELEVERAGING

- Net book value reduced by 30% to EUR 4.3bn since June-11, of which EUR 2.6bn constitute US RMBS and CDOs of US RMBS

- Capital consumption EUR 2.3*bn, down by EUR 1.5*bn since June-11, equivalent to EUR 19bn Basel 3 RWA

- Non Investment Grade assets account for 27% of total net book value but for 72% of capital consumption of legacy assets

- Weighted average life of 6.9 years

- Allocated capital* to be progressively reduced by end 2013 by dismantling of CDOs & disposal of liquid assets when capital accretive

- 20% Other USD assets
- 14% US RMBS
- 18% CDO of US RMBS

*Normative capital at the end of the period allocated to legacy assets 8% of RWAs and 100% of Basel 3 prudential deduction. Pro forma Basel 3
ON TRACK TO REACH OUR BASEL 3 CAPITAL OBJECTIVE WITHOUT A CAPITAL INCREASE

- Proven ability to generate capital
  - EBA capital requirement fulfilled in Dec-11, six months before the deadline
  - Basel 2.5 Core Tier 1 ratio up 35bp in Q1-12 to 9.4%

- Basel 3 CT1 ratio objective of 9-9.5% to be reached by end 2013 without a capital increase
  - Basel 3 impact fully mitigated by earnings generation and SG CIB deleveraging
  - Business asset disposals to provide additional capital buffer and room for selective organic growth

* When adjusted for changes in Group structure and at constant exchange rates
Global Markets: good client flows and reduced market turbulence in Q1
  • Fixed Income, currencies and commodities: very good performance, results driven by strong client activity and rally on fixed income markets
  • Equities: leadership positions maintained
Financing and advisory: good start on capital markets but negative impact of deleveraging
  • Structured finance: solid results considering reduced level of activity and net discount on assets sold
  • Capital markets: best DCM performance since Q3 09; high volumes and increased market share on ECM

We are delivering sound results in a highly uncertain environment

- Resilient revenues from our businesses despite deleveraging actions
- Cost of risk remains under control

We are well positioned to comply with Basel 3

- Proven capital generation ability and successful balance sheet reduction
- Basel 3 impact fully mitigated by earnings generation and SG CIB deleveraging
- Business asset disposals to provide additional capital buffer and room for selective organic growth

We are focused on transforming the Group

- Active deleveraging and deposit collection will continue to strengthen our funding position
- De-risking and strategic repositioning of SG CIB under a resource-light, distribution-oriented model
- Working to improve the operational performance of our businesses by reducing costs
