

Societe Generale - 2026 Annual Digital Accessibility Plan

Updated: February 12, 2026

2025 Year in Review

For more than 5 years, the implementation of digital accessibility has been continuing. The organization aimed at identifying the sites and applications concerned to make them accessible has been made permanent and a community bringing together the Group's referents meets monthly to monitor actions.

In 2025, the following work was carried out:

- Publication of the annual action plan
- Publication of accessibility statements for eligible sites
- Audit & remediation
- Continuation of the awareness-raising and training plan for business and technical teams
- Work to comply with the DDADUE law transposing the European Accessibility Act (EAA) directive

Plan for the year 2026
