### **NATURAL GAS: A KEY ROLE** IN THE ENERGY TRANSITION

[ช]

Maintain purchasing power

Secure energy supply

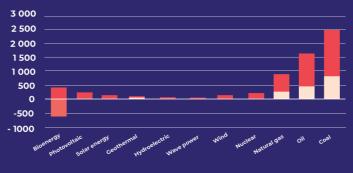

#### Strictly controlled investments

Societe Generale only invests in Oil & Gas sector projects that meet the highest social and environmental standards, including the International Energy Agency's Golden Rules and the Equator Principles

### #ForTheClimate

## **NATURAL GAS:** A TRANSITION ENERGY TO REPLACE COAL

Greenhouse gas emissions by energy source over the entire electricity production process

Maximum Minimum Negative

Electricity generation mix financed by Societe Generale, at 30/06/18

#ForTheClimate

## PIONEERING **INITIATIVES** IN RENEWABLE ENERGIES

+ 10 YEARS of renewable energy finance and advice

36 renewable energy transactions carried out in 2017

#ForTheClimate

### **NATURAL GAS: A TRANSITION ENERGY** TO REPLACE COAL

Decrease reliance on coal and oil in the energy mix

Support growth in emerging Asian countries

**Ensure energy** independence in Europe

Strictly controlled investments Societe Generale only invests in Oil & Gas sector projects that meet the highest social and environmental standards, including the International Energy Agency's Golden Rules and the Equator Principles
