This presentation contains forward-looking statements relating to the targets and strategies of the Societe Generale Group.

These forward-looking statements are based on a series of assumptions, both general and specific, in particular the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union, as well as the application of existing prudential regulations.

These forward-looking statements have also been developed from scenarios based on a number of economic assumptions in the context of a given competitive and regulatory environment. The Group may be unable to:

- anticipate all the risks, uncertainties or other factors likely to affect its business and to appraise their potential consequences;
- evaluate the extent to which the occurrence of a risk or a combination of risks could cause actual results to differ materially from those provided in this document and the related presentation.

Therefore, although Societe Generale believes that these statements are based on reasonable assumptions, these forward-looking statements are subject to numerous risks and uncertainties, including matters not yet known to it or its management or not currently considered material, and there can be no assurance that anticipated events will occur or that the objectives set out will actually be achieved. Important factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements include, among others, overall trends in general economic activity and in Societe Generale’s markets in particular, regulatory and prudential changes, and the success of Societe Generale’s strategic, operating and financial initiatives.

More detailed information on the potential risks that could affect Societe Generale’s financial results can be found in the Registration Document filed with the French Autorité des Marchés Financiers.

Investors are advised to take into account factors of uncertainty and risk likely to impact the operations of the Group when considering the information contained in such forward-looking statements. Other than as required by applicable law, Societe Generale does not undertake any obligation to update or revise any forward-looking information or statements. Unless otherwise specified, the sources for the business rankings and market positions are internal.

The financial information presented for the quarter year ending 31st March 2017 was reviewed by the Board of Directors on 3rd May 2017 and has been prepared in accordance with IFRS as adopted in the European Union and applicable at this date, and has not been audited.
1 – INTRODUCTION

Q1 17: ROBUST COMMERCIAL AND FINANCIAL PERFORMANCE FROM CORE BUSINESSES

Revenues from Core Businesses up +4.0%
Good momentum in International Retail Banking and Financial Services and Global Banking and Investor Solutions

Costs in line
Reflecting the acceleration of French Retail Banking transformation, strong momentum in International Retail Banking and Financial Services
Benefiting from savings plans in Global Banking and Investor Solutions

Low Cost of Risk reflecting improved Group risk profile

Group Net Income: EUR 747m in Q1 17 vs. EUR 924m in Q1 16
Contribution of Core Businesses up +31.4% vs. Q1 16 excluding Euribor refund
Further allocation to provision for disputes of EUR -350m in Q1 17
Underlying Group Net Income up +50.0% vs. Q1 16

Post-closing settlement with LIA of the civil litigation relating to transactions dating back to 2007
Impact on Group Net Income fully covered by the additional allocation to provision for disputes of EUR 350m booked in Q1 17

Underlying Group ROE(3) 10.5% in Q1 17 vs. 7.1% in Q1 16

(1) Excluding EUR 218m positive impact of Euribor fine refund in Q1 16, and adjusted for IFRIC 21 implementation
(2) Annualised, in basis points. Outstandings at the beginning of period. Excluding litigation
(3) Adjusted for additional allocation to provision for disputes (EUR -350m in Q1 17), for Euribor fine refund in Q1 16 (EUR +218m) and for IFRIC 21 implementation. Excluding revaluation of own financial liabilities and DVA (refer to p. 29 of Q1 17 Group results presentation) - Unadjusted ROE of 5.2% in Q1 17 and 7.1% in Q1 16
CAPTURING GROWTH FROM A DIVERSIFIED AND INTEGRATED BUSINESS MODEL

Fast growth in International Retail Banking and Financial Services and solid revenues in Global Banking and Investor Solutions more than compensate impact of low interest rates in French Retail Banking.

Portfolio quality and cost control ensure growing contribution to Group Net Income from Core Businesses despite increase in regulatory charges.

(1) Core Businesses contribution to Group Net Income. Excluding EUR 218m impact of Euribor fine refund in 2016 in Global Banking and Investor Solutions and EUR -725m from Goodwill impairment in Russia and withdrawal from Brazil in International Retail Banking and Financial Services in 2014.

Note: Data as disclosed in respective years.
STRUCTURAL DECREASE IN COST OF RISK

French Retail Banking

Prudent credit origination, improvement in debt collection
