2016 Global Financial Services Conference

Séverin Cabannes, Deputy CEO

New York, 1 June 2016
DISCLAIMER

This presentation contains forward-looking statements relating to the targets and strategies of the Societe Generale Group.

These forward-looking statements are based on a series of assumptions, both general and specific, in particular the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union, as well as the application of existing prudential regulations.

These forward-looking statements have also been developed from scenarios based on a number of economic assumptions in the context of a given competitive and regulatory environment. The Group may be unable to:
- anticipate all the risks, uncertainties or other factors likely to affect its business and to appraise their potential consequences;
- evaluate the extent to which the occurrence of a risk or a combination of risks could cause actual results to differ materially from those provided in this document and the related presentation.

Therefore, although Societe Generale believes that these statements are based on reasonable assumptions, these forward-looking statements are subject to numerous risks and uncertainties, including matters not yet known to it or its management or not currently considered material, and there can be no assurance that anticipated events will occur or that the objectives set out will actually be achieved. Important factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements include, among others, overall trends in general economic activity and in Societe Generale’s markets in particular, regulatory and prudential changes, and the success of Societe Generale’s strategic, operating and financial initiatives.

More detailed information on the potential risks that could affect Societe Generale’s financial results can be found in the Registration Document filed with the French Autorité des Marchés Financiers.

Investors are advised to take into account factors of uncertainty and risk likely to impact the operations of the Group when considering the information contained in such forward-looking statements. Other than as required by applicable law, Societe Generale does not undertake any obligation to update or revise any forward-looking information or statements. Unless otherwise specified, the sources for the business rankings and market positions are internal.

The financial information presented for the quarter year ending 31st March 2016 was reviewed by the Board of Directors on 3rd May 2016 and has been prepared in accordance with IFRS as adopted in the European Union and applicable at this date, and has not been audited.

- **GBIS Offshore**
- **GBIS Support Functions**
- **All GBIS**
- **Global Markets Front-Office**
In Q1 16, the Group has demonstrated the quality and resilience of its business model:

- Stability of French Retail Banking, anchored on solid asset quality and investment in growth drivers and synergies
- Confirmed growth potential of International Retail Banking and Financial Services
- Proven resilience of Global Banking and Investor Solutions, despite an unstable market environment, thanks to model adaptation and strict monitoring of costs
- Very solid balance sheet with capital and regulatory ratios in line with revised targets

EPS\(^{(1)}\) stable vs. Q1 15, at EUR 0.90
Net Tangible Asset Value per Share at EUR 56.46 vs. EUR 53.63 in Q1 15

In 2016, the strength of the diversified business model, additional efforts on costs and solid asset quality should sustain both commercial and financial performances

---

\(^{(1)}\) Excluding revaluation of own financial liabilities and DVA (impact of EUR 95m on Group Net Income in Q1 16)
