Disclaimer

The following presentation contains a number of forward-looking statements relating to Société Générale’s targets and strategy. These forecasts are based on a series of assumptions, both general and specific. As a result, there is a risk that these projections will not be met. Readers are therefore advised not to rely on these figures more than is justified as the Group’s future results are liable to be affected by a number of factors and may therefore differ from current estimates. Readers should take into account elements of uncertainty and risk when basing their investment decisions on information provided in this presentation. Neither Société Générale nor its representatives shall have any liability whatsoever for any loss arising from any use of this presentation or its contents or otherwise arising in connection with this presentation or any other information or material discussed.

The Group’s consolidated financial statements were examined by the Board of Directors on February 17th 2009.

The quarterly results at March 31st 2007, June 30th 2007, September 30th 2007 and December 31st 2007, presented for comparative purposes, have been adjusted to restate the accounting consequences of the fictitious transactions recorded in 2007 and 2008 relating to unauthorised, concealed market activities discovered in January 2008. This information is appended on pages 5 to 8. However, in order to provide more relevant information on the Group’s performance, the figures in this document correspond to reported historic data. The comments are also based on these reported historic data. The consolidated financial statements for the fourth quarter of 2008 and FY 2008 and the comparative data for the fourth quarter of 2007 and FY 2007 (reported and restated) have been reviewed by the Statutory Auditors. The Basel II data in this presentation have not been audited by the Statutory Auditors.

The figures provided for the financial year ended December 31st 2008 and the comparative data relating to FY 2007 have been prepared in accordance with IFRS (International Financial Reporting Standards) adopted by the European Union and applicable at these dates. The consolidated financial statements have been audited by the Statutory Auditors.

Unless otherwise specified, the sources for the business rankings are internal.

Conclusion
## 2008 highlights

| French Networks and International Retail Banking | Good resilience of French Retail Banking in a challenging environment  
Solid international performance  
Prudent goodwill impairment in Russia |
|---|---|
| Financial Services | Satisfactory commercial performance despite the effects of the economic slowdown at year-end  
Profitability affected by the deterioration of the second-hand vehicle market and by a foreign exchange loss in the Ukraine |
| Global Investment Management and Services | Satisfactory performance for Private Banking, securities services, futures brokerage and on-line banking  
Asset management affected by the crisis, strategic realignment underway |
| Corporate and Investment Banking | Solid franchise: 2nd best historical commercial performance  
Trading activities deeply affected by very poor market conditions, particularly in Q4 08  
Reduction of exposures at risk |
| **Group** | Net income*: EUR 2.0 billion  
EPS: EUR 3.38, payout ratio 36%  
Basel II Tier 1 ratio of 8.8%** and Core Tier 1 ratio of 6.7%**  
Confirmed soundness of Group fundamentals |

* Application of IAS 39 amendment (transfer of EUR 28.6bn of assets mainly to loans and receivables, whose revaluation would have generated a negative effect on the NBI of EUR 1.5bn)  
** Excluding floor effect (floor at 10% of the difference between Basel II RWAs and Basel I CWAs)
2008 marked by market dislocation

- Continued deterioration of ABS/CMBs indices
- Credit spreads of IG and NIG Corporates: unprecedented widening (in bp)
- Credit spreads of financial institutions: high volatility and return to March 2008 levels (in bp)
- Record levels of volatility on equity markets
## 2008 Net Income: EUR 2.0bn

2008 client-driven revenues: 2nd best historical performance

- **Client-driven revenues**(1): EUR 4.8bn (-8.1% vs. 2007)
  - **Fixed income, Currencies and Commodities**: record client revenues (+33% vs. 2007 and +53.8% vs. 2006) with a 2008 performance driven by flow products and commodities
  - **Financing and Advisory**: good results
    - Good positioning in growth areas, notably infrastructure and natural resource financing
    - Successful cross-selling
    - Euro capital market: solid market share despite falling market volumes
  - **Equities**:
    - Strong performance of flow products
    - Resilient commercial production of structured products over the year, affected in Q4 08 by the negative impact of hedges on client positions
- **Positive trading revenues**(1) despite an extremely challenging Q4 08

A core business for the Group's strategy: repositioning to increase client focus and operational efficiency and reduce risks

Increase client focus
- Enhance client coverage
- Client relationship development based on a twofold approach: Advisory / Financing Solutions
- Increase synergies between market activities and greater client focus

Increase operational efficiency and security
- Possible merger of market activities under review
- Continued transformation of the operational model

Improve the risk profile
- Optimise allocation and management of scarce resources
- Deleveraging and reduction of exposures at risk
- Cross-business market risks supervision

- Higher proportion of client-driven revenues
  - Revenues less volatile
- Model well positioned to seize opportunities
- Targets\(^{(1)}\)
  - C/I < 60%
  - ROE \(\approx\) 20%

\(^{(1)}\) Cross-cycle targets
Reduction of operating expenses

- **Operational efficiency plan**
  - Underway throughout the Group
    - 170 initiatives Group-wide
  - Examples
    - A process programme covering all the Group’s entities (common methodology, governance and dedicated correspondents)
    - Greater resource-sharing
      (IT infrastructures, international purchasing pools, editing resources shared by business lines, international pooling of CRM in retail banking, etc.)
    - IT efficiency optimisation programme

- **Additional cost containment measures**
  - Stepping up of measures to reduce external expenses (travel, events, mobile phones, use of temporary staff, etc.)
  - Selective hiring freezing / headcount reduction
  - Control of IT costs
  - Slowdown in new branch openings

- **Positive effects on the GOI**
  - EUR +400m in 2009
  - 2010 target: ≈ EUR +1bn
