SECOND QUARTER AND FIRST HALF 2010 RESULTS
Disclaimer

The following presentation contains a number of forward-looking statements relating to Societe Generale’s targets and strategies. These forecasts are based on a series of assumptions, both general and specific, particularly - unless otherwise indicated - the application of the IFRS accounting principles and methods as adopted by the European Union and applied by the Group in its accounts at June 30th 2010, and the application of current prudential regulations. There is a risk that these projections will not be met. Readers are therefore advised not to rely on these figures more than is justified as the Group’s future results are liable to be affected by a number of factors and may therefore differ from current estimates.

Readers should take into account elements of uncertainty and risk when basing their investment decisions on information provided in this presentation.

Neither Societe Generale nor its representatives shall have any liability whatsoever for any loss arising from any projections or analyses relating to the Societe Generale Group’s targets and strategies to which this presentation may refer.

The consolidated half-yearly income statements at June 30th 2010 and the comparative information thus prepared have undergone a limited review by the statutory auditors. These income statements were approved by the Board of Directors on August 3rd 2010.

The figures provided for the six months ended June 30th 2010 have been prepared in accordance with IFRS (International Financial Reporting Standards) adopted by the European Union on June 30th 2010. In particular, the Group’s condensed consolidated half-yearly income statements have been drawn up and are presented in accordance with IAS 34 “Interim Financial Reporting”.

The sources for the business rankings are explicitly stated. Unless otherwise indicated:
- the sources for the rankings are internal;
- the French Network figures do not include Société Marseillaise de Crédit.
Confirmation of the Group's rebound

- Satisfactory quarterly results in a volatile environment
  - Strong commercial and financial growth in the Retail Banking businesses
  -Decline in Corporate and Investment Banking's performance, but strong resilience given the unfavourable market environment and prudent management of market risks
  -Continued improvement of the cost of risk and limited impacts of legacy assets
  -Group Net Income of EUR 1,084m (EUR 918m excl. the financial liabilities' revaluation)

- H1 10: transformation of the Group underway
  -1st adjustments to the portfolio (acquisition of SMC and planned disposal of ECS announced)
  -Improved operational efficiency: Cost/Income ratio of 62.5\%(1), down -2.0 points vs. H1 09

- Solid financial structure
  -Tier 1 ratio of 10.7\%(2) and Core Tier 1 ratio of 8.5\%(2) at end-June 2010
  -Tier 1 ratio estimated at 10.0\%(3) at end-2011 according to the most severe scenario under the European stress tests
