Amendment to IAS 39: reclassifications of non-derivative financial assets

■ No asset reclassifications since October 1st 2008

Change in fair value between transfer date and period end date (value that would have been booked if the instruments had not been reclassified)			
In EUR bn	2008	2009	Q1 10
OCI	-0.54	0.68	0.07
Net banking income	-1.5	-1.6	0.3
<i>For the record, provision booked to NCR</i>	0.0	-1.1	-0.2

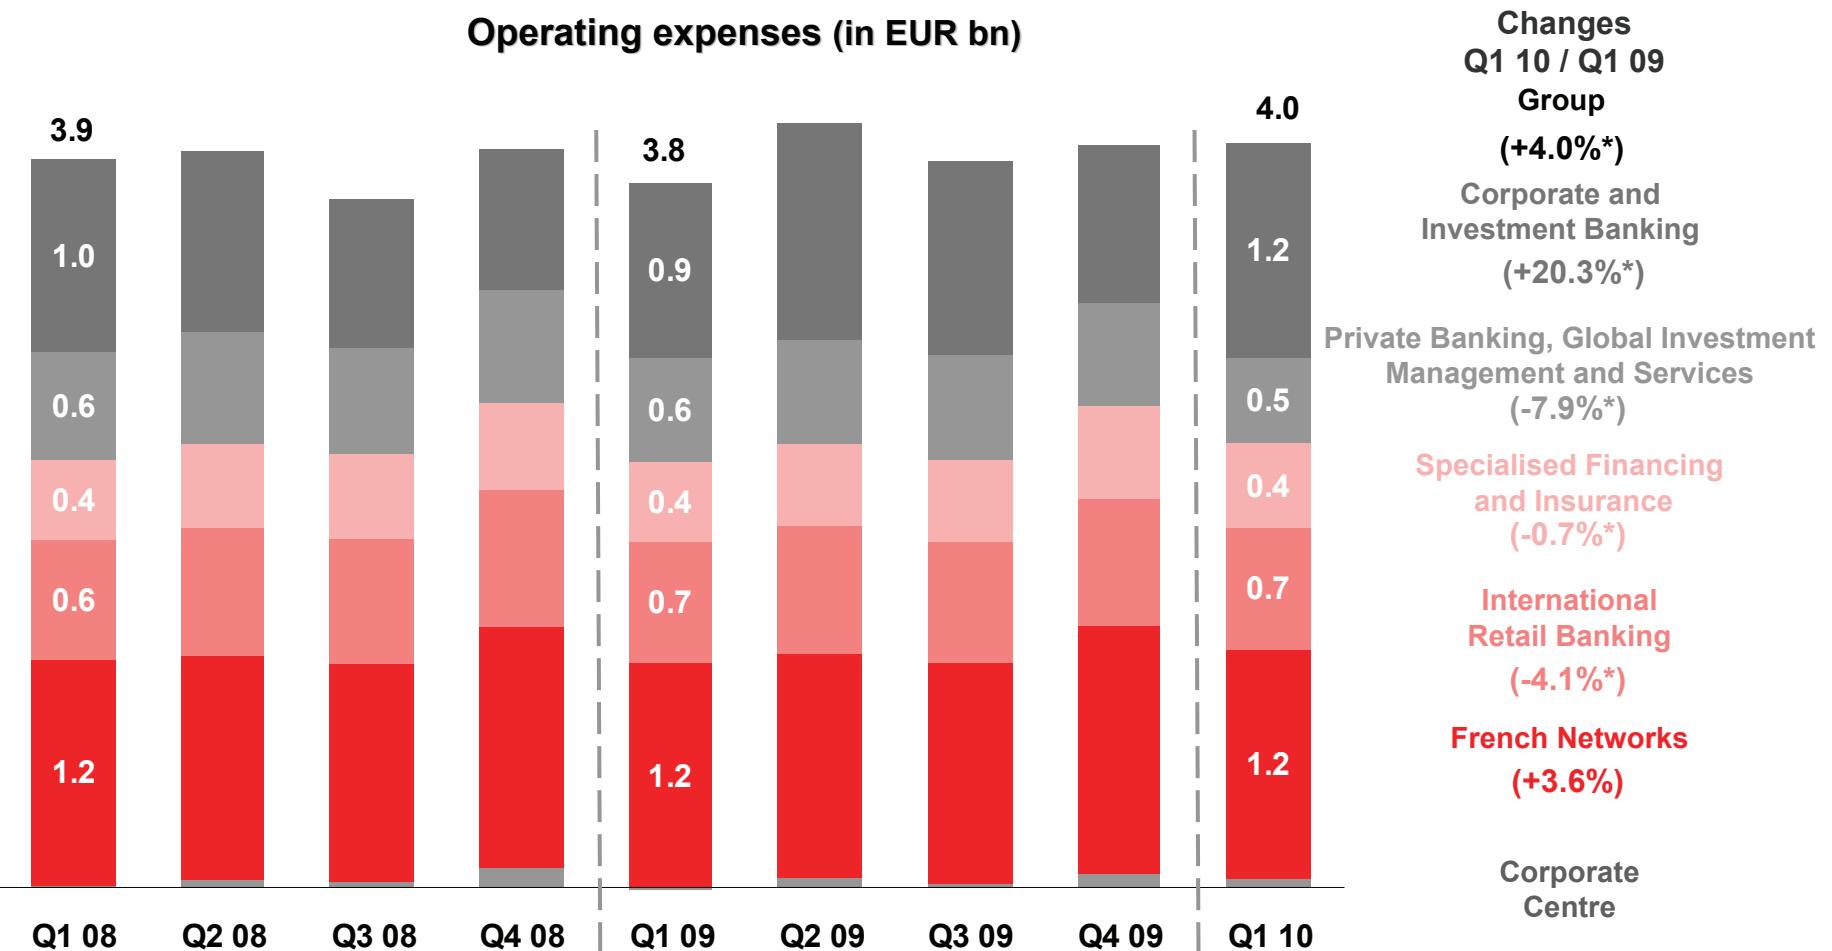

Reclassified asset portfolio			
In EUR bn	31/03/10		
Transferred to	NBV	Fair value	
Available-for-Sale	0.7	0.7	
Credit Instit. Loans & Receivables	4.9	5.1	
Customer Loans & Receivables	19.6	17.8	
Total	25.3	23.7	

The asset reclassification on October 1st 2008 entailed a change in management direction, based on a "credit risk" approach rather than a "market risk" approach. Consequently, the negative effect on the net banking income described above that the Group would have booked if the assets had continued to be valued at market value does not take into account the measures that would have been implemented with management at market value of the corresponding assets (hedges, disposals, etc.).

Gross interest margins*

 - ▶ Structure effect, measured by the ratio of deposits to loans
 - ▶ Margin on resources:
replacement rate of resources
- remuneration rate of resources

Interest margin = Interest margin on loans + Deposits x (Replacement rate of resources - Remuneration rate of resources)

Quarterly average of 1-day, 99% Trading VaR (in EUR m)

* Trading VaR: measurement over one year (i.e. 250 scenarii) of the greatest risk obtained after elimination of 1% of the most unfavourable occurrences.
Since 01/01/2007, the Group has incorporated changes in equity volatility (in the place of changes in index volatility).
Since 01/01/2008, the parameters for Credit VaR have excluded positions on hybrid CDOs, which are now accounted for prudentially in the banking book.

Determination of number of shares used to calculate the EPS

Average number of shares (thousands)	2008	2009	Q1 10
Existing ordinary shares	568,782	646,234	739,806
Deductions			
Shares allocated to cover stock options awarded to staff and restricted shares awarded	9,872	11,444	12,022
Other treasury shares and share buybacks	18,631	10,301	8,987
Number of shares taken to calculate EPS*	540,279	624,489	718,797
EPS* (in EUR) (a)	3.20	0.45	1.36

* When calculating the earnings per share, the "Group share of net income for the period" is adjusted (decreased in the case of a profit and increased in the case of a loss) by the following elements:

- (i) the interest, net of tax, to be paid to holders of deeply subordinated notes (EUR 76 million at end-March 2010) and to holders of undated subordinated notes reclassified from debt to shareholders' equity (EUR 6 million at end-March 2010),
(ii) in 2009, the amount to be paid (prorata temporis) to holders of preference shares (EUR 60 million at end-December 2009).

The earnings per share therefore equal the Group share of net income for the period thus adjusted divided by the average number of existing ordinary shares, excluding treasury shares and buybacks, but including the trading shares held by the Group.

(a) In accordance with IAS 33, historical data per share prior to the date of detachment of a preferential subscription right are restated by the adjustment coefficient for the transaction.

Determination of number of shares used to calculate the NAPS

Number of shares at end of period (thousands)	2008	2009	Q1 10
Existing ordinary shares	580,727	739,806	739,806
Deductions			
Shares allocated to cover stock options awarded to staff and restricted shares awarded	9,743	11,976	12,068

Number of shares taken to calculate NAPS*	560,737	718,843	718,751
NAPS* (in EUR) (a)	49.6	48.9	51.2

* The net asset value per ordinary share equals the Group shareholders' equity, excluding

(i) deeply subordinated notes (EUR 6.4 billion at end-March 2010), reclassified undated subordinated notes (EUR 0.9 billion at end-March 2010), (ii) the interest to be paid to holders of deeply subordinated notes and undated subordinated notes and (iii) the remuneration of preferred shares in 2009, determined under contractual terms, but reinstating the book value of the trading shares held by the Group.

The number of shares considered is the number of ordinary shares outstanding at March 31st 2010, excluding treasury shares and buybacks, but including the trading shares held by the Group.

(a) In accordance with IAS 33, historical data per share prior to the date of detachment of a preferential subscription right are restated by the adjustment coefficient for the transaction.
