

Carlos Gonçalves

Global Chief Information Officer

Carlos Gonçalves was appointed Global Chief Information Officer in 2022.

Carlos Gonçalves started his career in the Research and Development team of Portugal Telecom before joining Societe Generale in 1993 as part of the IT department of Societe Generale Corporate & Investment Banking (SG CIB).

Carlos Gonçalves was initially in charge of the Treasury Management System, before contributing to the conception and development of a major trading program and becoming head of the team in 1997. In 2007, he was appointed Global Head of Technology for Equities Derivatives, and, from 2009, Deputy Global Chief Information Officer for SG CIB. In 2011, he became Global Chief Information Officer for SG CIB and, in 2013, Global Chief Information Officer for the Global Banking & Investor Solutions division and in 2016, Head of Global Technology Services.

Carlos Gonçalves studied at Lisbon University as an IT engineer specialised in Artificial Intelligence.
