Since 2013, Societe Generale is the only French bank recognised as a “Distinguished Provider” by FImetrix, a firm specialising in market research and consulting for international financial services aimed at banks. This distinction, awarded after a vote of several hundred professionals in the sector, reflects the quality of service delivered by the Bank to financial institutions.

Each year, FImetrix carries out several studies in order to identify the global leaders in Transaction Banking services.

For its 2019 Distinguished Provider award, FImetrix surveyed senior executives from 551 banks in 84 countries around the world. The participants were asked to rate the quality of services provided by the major actors in the sector. Their responses were then used to map out their overall satisfaction with these services.
